

- compressed air productivity on the inlet
in DF, m³/min, no more than - 5,0;
- terminal overpressure, MPa, no more than - 1,0;
- degree of filtration, mcm - 10;
- compressed air temperature on the inlet, °C, no more than - 90
- temperature of compressed air dew point on the inlet no less
than on 3 °C below the ambient air temperature;
- overall dimensions, mm - 158 * 114 * 482;
- weight, kg - 7,7.
