

Table – Basic dimensions and characteristics

| Parameter's designation | Measurement un. | Designation | |
|--|-----------------|--------------|-------------|
| | | 845, 845-01 | 845-02 |
| | | Significance | |
| 1 Size of pull shortening, no less than | mm | 300 | |
| 2 Shortening of the fluid controller's length for one braking by the compressed air pressure: - (0,10±0,01) MPa, no less than - (0,45±0,01) MPa, no less than | mm | 2,5 | |
| 3 Changing of the fluid controller's length by action of the maximum outside forces, no more than | mm | 12 | |
| 4 Hermeticity of the fluid controller (compressed air pressure drop through the pneumatic cell (leakage) during 60 s) by the pressure: - (0,10±0,01) MPa, no more than - (0,45±0,01) MPa, no more than | MPa | 0,01 | |
| 5 Overall dimensions, no more than | mm | 620*190*290 | 680*190*290 |
| 6 Weight, no more than | kg | 18 | |
