

Dilution pressure that is created with the pump in the sealed container with the volume 20 l., kPa (kgf/cm ²), no less than	70 (0,7)
Time of creating of the dilution pressure from the atmospheric to 70 (0,7) kPa (kgf/cm ²) in sealed container with the volume 20 l. by the nominal pump shaft rotation speed, s, no more than	70
Nominal pump shaft rotation speed, s ⁻¹ (rpm)	25 (1500)
Weight, kg, no more than	3,6
Overall dimensions (L*B*H), mm	160 * 146 * 120
